

KATANABOY Professional 700

Chainsaw cutting power in a portable handsaw.

Meet the Silky Katanaboy 700, the next evolution in high-performance hand saws. Featuring an impressive 27.5-inch (700mm) blade and ultra-aggressive, extra-large teeth, this two-handed folding saw delivers chainsaw-like cutting power—without the noise, fuel, or maintenance. Whether you're clearing trails, processing firewood, or tackling serious backcountry tasks, the Katanaboy 700 offers unmatched performance for professional arborists, bushcrafters, wilderness enthusiasts, and hardcore DIYers alike.

Features and Benefits:

- Redesigned handle with higher strength and improved ergonomics
- New carrying case made with lightweight synthetic fiber with velcro opening
- Security screw protects against accidental opening or closing of the blade
- Product applications include pruning & trimming, trail building and maintenance, construction, bushcraft, wilderness survival
- Re-sharpenable Nickel-plated blade
- Limited lifetime warranty against defects in material and workmanship
- Handmade in Japan
